INTRODUCTION

Kurzeme is great! And it is its people who make it great – people who are able to collect nature's gifts and turn them into something unique and special.
The fishermen who offer freshly caught fish – the skilled confectioners and winemakers who turn berries into sweets, wines and other delicacies – the bakers who make the most delicious gateaux and other desserts – the craftsmen whose skilled hands, using knowledge passed down over generations, make wooden items for daily use, create art out of metal and turn threads into traditional folk costumes or blankets.
The home producers and craftsmen of Kurzeme will open the doors of their farms and households, tell their stories, show their trade secrets and techniques, and offer their homemade treats.
The greatness of Kurzeme can be felt in each and every place – it is there for you to taste, smell, touch and feel!

www.abavas.lv
abavas.vinadaritava
LV, RU, EN

The winery "ABAVAS" is a company that was established and developed by the family of Mārtiņš Barkāns and Liene Barkāne. It makes high-quality drinks from Latvian-grown fruit and berries. "ABAVAS" production is held in high esteem by sophisticated experts both in Latvia and abroad. The winery is located by Slampe, near the source of the River Abava, where a modern winery has been built. The organic orchard beside the winery is a particular delight: the apples of old varieties grown there provide excellent ingredients for drinks.

"SAULES CEPLIS"

"Medulāji", Padure, Kuldīga municipality
+371 26072594
SaulesCeplis
LV, RU

Ceramist Madara Atiķe is one of the few masters of the craft who makes dishes by using traditional techniques. Each work is handmade and fired in a pit open fire kiln; the processing also includes treatment with wooden and silver spoons. The clay items gain their silvery black colour due to the application of the traditional technique of smoke firing. When visiting the ceramicist, the guests will get to know more about the beginnings of ceramics, creation of dishes and the specifics of heating the black pottery kiln.
